

Hello Crew –

The weekend is over and I think we are a very happy bunch. A big Thank-You to all of you. Special mention goes to Irene, who gave her all in every way. We certainly appreciate your efforts today and hope that the back injury heals quickly. I want to thank Anne for her excellent steering and Linda for keeping us focused and Together. Without the our Steers and Drummer the crew cannot function. Both of you did a wonderful job for us. Dana , Thank-you for stepping-in and paddling with us. I know it's not easy to just jump into a crew and go. Mary, this was your first race ever and I certainly hope that it was all you imagined it might be.

As Crew you were challenged by Irene to bring back some "Bling" and you did! You did it by working Together and following Eve's advice on how to paddle - "Dig deep", "Be Controlled". I am very proud of you because today you learned to be a Team. There are no Stars, just 22 people working as ONE.

The last thing on the agenda for today is to take care of those aching muscles you didn't know you had.

Thanks for being a great Crew,
Alina
Your Captain
